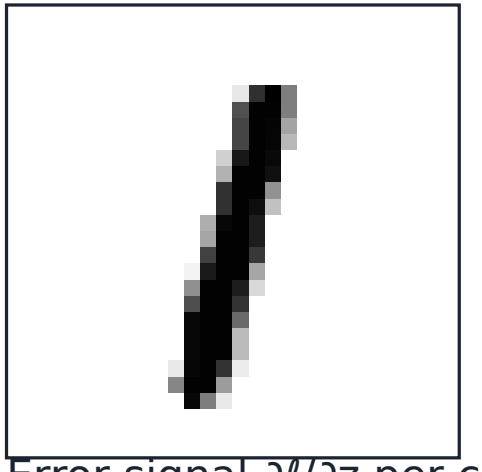
Backward pass — mnist-012

Input (example #1471)

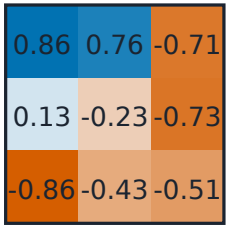


kernel 1

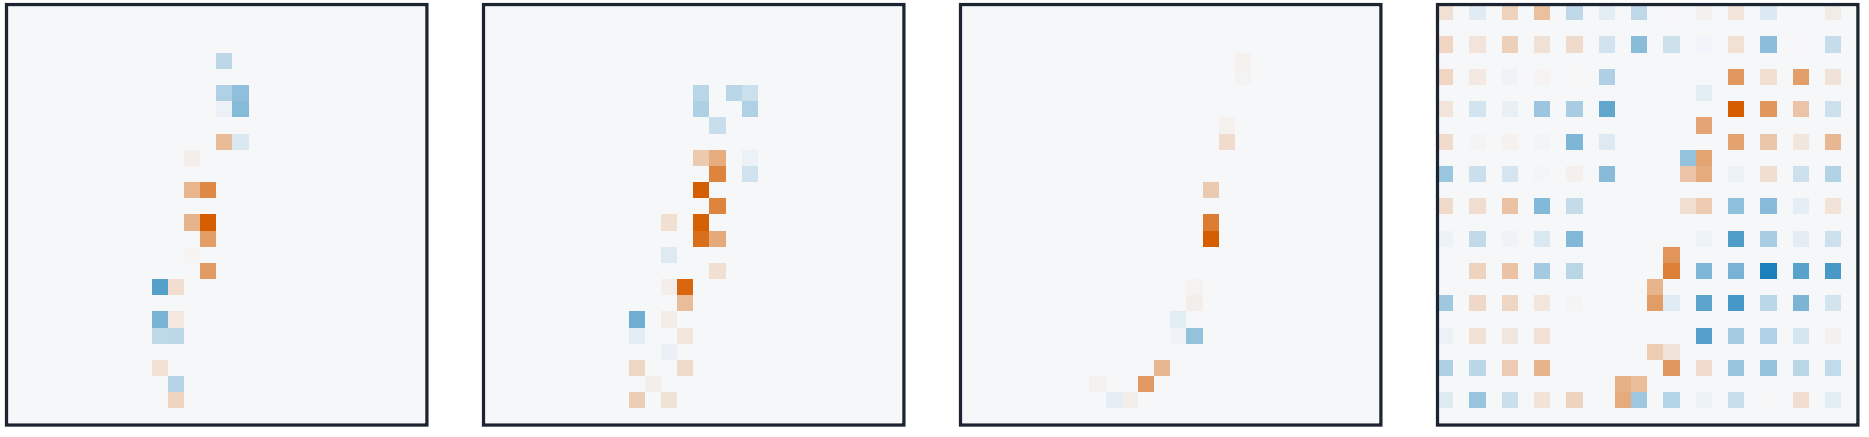
kernel 2

kernel 3

kernel 4



Error signal ∂ℓ/∂z per channel



channel 1 channel 2 channel 3 channel 4

Backward pass through the convolution layer at epoch 3, batch 1, example #1471, instruction 83890 of 125791. Each map is scaled to its own largest magnitude (blue positive, orange negative); kernel values are printed in each cell.
